Dear Colleague,

Please join us for the 10th SSHO 2019 taking place on Thursday, 4th April, at the University Hospital Bern (Inselspital) in Bern.

This year we are hosting a panel of internationally and nationally renowned experts who will give state-of-the-art scientific lectures and discuss practice-oriented clinical cases in the fields of Hodgkin lymphoma, chronic myeloid leukemia (CML) and aggressive lymphomas. The recent advances in CAR T-cell therapies and liquid biopsies are also featured.

There will be numerous opportunities for you to interact directly with the panel in the main center at the Inselspital or at the various satellite centers via videoconference, allowing you to gain a broader understanding of the topics under discussion.

We look forward to seeing you at the 10th SSHO 2019 in Bern or at one of our satellite centers.
